

## CARD 5

### Memorial for Raoul Wallenberg

Discuss in the group what kind of messages you would transmit with a memorial dedicated to Raoul Wallenberg. Plan two different types of memorials:

- one is for the general public (in a city, in a museum etc.) and you can use any material (stone, iron, wood, water, computers, films, pictures, etc.), it can have any form you imagine (statue, monument, building, installation, etc.);
- the other one is primarily for your schoolmates, to be exposed in your school, and you can use only simple materials accessible in school (paper, images, pictures, maybe computers, clay, plastic, recycled materials)

*Memorial for general public*
